

• | innVision

The innVision ST is an innovative software, based on artificial vision technology, to make deformation analysis easier. Captures images during testing with a high-speed camera and semi-automatically analyzes them. This allows the user to measure the load deformation in just a few clicks.

The innVision ST can be used with any manufacturer of testing equipment

Technical specifications

- Includes camera, software, connection cable, mounting adaptor, and tripod
- HD Camera (2.5 Mpx)
- High speed camera 120 fps
- Creates test report post testing
- Included with ➡ **innSlide**

Optional add-on for

- Can be used with
 - ▾ **innDrop**
 - ↳ **innTilt**
 - **innShock**
 - ⤴ **innWave**
